Equipment Breakdown Coverage

Today's farms are more sophisticated than ever – so you need insurance that protects your valuable equipment and the income it helps generate.

Whether it's a power surge that takes out the circuit board on an automatic dispensing pump – or a boiler overheating because of a pump failure – we can offer you coverage to protect your business from the impact of equipment breakdown.

While you probably have good property insurance for your farm, you might be surprised to know it doesn't cover accidental equipment breakdown.

Flexible, affordable protection for your high-tech equipment.

Breathe easier when you have coverage for:*

- computers and electronics including circuit boards, office phone systems and more
- electrical distribution such as generators, panels, circuit breakers and cables
- mechanical equipment: the motors, gears, pumps and automated equipment that keeps your operation running smooth
- critical refrigeration and other controlled environments
- specialized equipment such as milking machines and grain dryers
- boilers and pressure vessels including alternative energy systems, heat pumps and electrical solar panels

The mutual difference.

Ontario Mutuals are more than 40 independent insurance companies that grew in the small towns and rural areas that form the backbone of our province. But don't let our small size fool you. Together, we represent one of the strongest, most secure financial networks in the world.

The spirit of mutual insurance is woven into the fabric of every community. It's the spirit of coming together for the greater good. While many of our member companies began as farm mutuals in the mid 1800s, today we offer a full range of home, auto, commercial and farm insurance tailored to protect you and your family.
